

822 Gymleco Weight plate Polyuretan, black

Weight plates

Gymleco's international weight plates with handles, enhanced with the markets strongest rubber: Polyuertan.

These rubbered weights from Gymleco are inspired by our most popular weight plates, article 423. They are of the highest quality and made for commercial use in the gym. The plates have handles for easy switch between machines. Unlike bumper plates these weights are hard which doesn't make them "bumpy".

Weight/diameter/thickness:

- Weight diameter: 50 mm
