

L7029L Upright Bike with big LED display

Cardio Machines

The Upright bike is extremely stable and silent. Thanks to the classic and beautiful design, it is easy to place in any gym and at the same time easy to understand for everyone, regardless of being a beginner or an advanced athlete. It's made of high quality materials on all details.

This Upright bike is ergonomically designed and suitable for all training and gym environments. The exercise bike is designed with wheels which makes it easy to move around and handles with different grip options. The easy-to-read display shows time, distance, speed, speed, level, calorie burn, heart rate and power. The display and brake system is self-sufficient which means that you don't need any cables.

- Heart rate monitor in the handles
- Handles with different grip options
- The bike has sturdy adjustable feet
- The wheels make it easy to move
- LED console
- Cordless generator driven

Length	Width	Height	Weight	Max User Weight
166 cm	32,5 cm	78 cm	68 kg	180 kg

- Clean with a gentle detergent.
- Always clean the machines with electricity off.
- Keep your machines free of dust and dirt by continuously vacuuming in, under and around the machine.

- Cleaning with alcohol can damage the machine parts and shorten the lifespan.
- Do not expose the products to damp environments or liquid.
