

191V Gymleco Dumbbell Exercise Bench, Level

Gym equipment - Gym benches

Gymleco's specially designed dumbbell bench is designed to optimize dumbbell exercises. The split backrest maximizes exercises such as dumbbell flies or chest presses. The training bench is ergonomically designed at the same time made of robust material choices for lifelong durability.

This model is fixed and is not adjustable. If you want an adjustable variant of the same design, we recommend article 193V which is of the same design with adjustable function.
