

# 323 Gymleco Pec Deck

300 series, Selectorized machines

Gymleco's Pec Deck machine that trains the entire chest muscles. Anatomically correct angle of movement towards the chest muscle.

Good grip for gentle movement and relief of the shoulders. Individual loading of the arms increases freedom of movement.

The smooth adjustment of the handles makes it easily adapted for all lengths. Very compact and supple machine thanks to the arm point of the arms under the machine.

- Standard frame color: Black
- Standard cushion color: Black / Red
- Weight block: 100 kg
- Larger weight block (optional)
- Inward long V-shaped movement.

Lenght	Width	Height	Weight
146 cm	171 cm	150 cm	198,5 kg

No maintenance needs.
