

349 Gymleco Leg Extension / Seated Legcurl

300 series, Selectorized machines / Multimachines

Do you want exercise equipment with full function but lack space? Then this is the optimal combination. All that is required is an area of 1.5 m².

This is a combination machine where the design is both anatomically and biomechanically correct in both exercises, thanks to Gymleco's precise link.

It is a camshaft exchanger that automatically changes the biomechanics when you switch the machine between exercises.

- Standard frame color: Black
- Standard cushion color: Black / Red
- Easy to set
- Compact design
- Weight block: 100 kg
- Larger weight block (optional)
- Long movement

Lenght	Width	Height	Weight
115 cm	99 cm	163 cm	224 kg

No maintenance needs.
